Profile

Full-Stack Developer with professional experience building and shipping production-grade applications using React, Node.js, Express, and PostgreSQL. Skilled in REST API design, JWT/RBAC authentication, and cloud deployments. Solid DSA fundamentals with a LeetCode rating of 1490.

Technical Skills

Languages: Java, JavaScript (ES6+), Python, C
Core CS: DSA, OOP, DBMS, OS
Frontend: React.js, TypeScript, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, RBAC, WebSockets, WebRTC
Databases: PostgreSQL, MongoDB
Tools: Git, GitHub, Docker, Postman, Render, Vercel, Cloudinary

Experience

Software Development Engineer Intern

Jan 2026 – May 2026

IQVenus Technologies

Kolkata, India

- Built and maintained full-stack applications using React, Node.js, Express, and PostgreSQL supporting internal business workflows.
- Designed and implemented **7+ RESTful APIs** with proper validation, error handling, and optimized response times.
- Implemented JWT authentication and RBAC to secure sensitive application routes across multiple user roles.
- Collaborated within a **3-member engineering team** to debug and refactor codebase, contributing to a **30% reduction** in production bugs.
- Followed clean code principles, Git-based version control, and agile development practices in a production environment.

Projects

Cloud-Desk | *React, Node.js, MongoDB, Socket.IO, Stream SDK* | [GitHub](#) | [Live](#)

12/2025 – 03/2026

- Built a real-time collaborative learning platform featuring live video (**WebRTC**), shared Monaco code editor, and Excalidraw whiteboard with multi-language code execution (Python, Java, C++, Go, Rust).
- Implemented **WebSocket-based session sync**, JWT auth via Clerk, tab-switch detection for session integrity, and containerized using **Docker** with **Redis** for session/state management.

Freelance Full-Stack Web App | *React, TypeScript, Node.js, Express, MongoDB* | [GitHub](#) | [Live](#)

01/2026 – 03/2026

- Sole developer of a production-grade full-stack web app for an **EdTech client** using React, Node.js, and Express.js with JWT authentication and RESTful APIs.
- Deployed on **Vercel** (frontend) and **Render** (backend) with environment configuration, asset optimization, and responsive design.
- Optimized SEO via **Google Search Console**, achieving **position 1.4** average ranking, **126 clicks**, **182 impressions**, and **~69% CTR** within 3 months.

Admin Dashboard | *React, Node.js, Express, PostgreSQL* | [GitHub](#) | [Live](#)

09/2025-10/2025

- Built a secure production-ready admin dashboard with **role-based access control (RBAC)** and multi-theme support.
- Integrated **Arcjet** and **Helmet.js** to mitigate automated bot traffic and enhance application security.
- Designed modular RESTful APIs and deployed on Render with environment-based configuration.

Education

Techno Main Salt Lake

2024 – Present

B.Tech in Information Technology

Kolkata, India

Indian Heritage School

2023

Class XII (CBSE) – 76.4%

Jasidih, Jharkhand

St. Joseph's School

2021

Class X (ICSE) – 89%

Dumka, Jharkhand

Position of Responsibility

Tech Member – Institution's Innovation Council (IIC)

Nov 2024 – Present

Techno Main Salt Lake

Kolkata, India

- Led the redesign and modernization of the official IIC website using React.js, ensuring full responsiveness across devices.
- Developed and deployed the **“Skillde” Hackathon Portal**, a centralized platform for event registration, schedules, and updates.
- Improved frontend performance and UX by optimizing component rendering and ensuring cross-browser compatibility.

Achievements

Winner, Geekathon 2026 (Team) – Secured 1st place in a competitive hackathon involving full-stack development challenges.

LeetCode Rating: 1490, CodeChef Rating: 1175 – Consistent problem solving in DSA.

Qualified **Smart India Hackathon (SIH) 2025**; Hacktoberfest Contributor (Open Odyssey).
